FOUNDATION FOR INTEGRATED SUPPORT AND SOLUTION (FISS)

CIN- U74999AS2016NPL017565

Founded on August, 2016, FISS endeavors to bridge the gap between the vulnerable sections of the Society and the resourcefulness of various stakeholders of development like the Government, PSUs, Companies, NGOs, co-operatives etc.

It is a platform for integrated and inclusive socio economic development, growth and innovation in Northeast India aligned with the global perspectives of SDGs as well as National Policies adopted by NITI Aayog.

The Programs supported, promoted, initiated and / or facilitated are community driven and pro poor. The thematic areas are prominently identified to avail equitable access to health care, education and livelihood. The initiatives and actions intending to balance the environmental damage and degradation and also building of socio economic infrastructure of quality are the other thematic areas of our focus.

The solution driven interventions to enable communities towards having access to affordable safe drinking water, nutritious food, hygiene & sanitation and wellbeing are priorities to FISS. A rights-based initiative for empowering the children and women has been on the forefront of the actions of FISS. Also, FISS aims to bring the thinkers and doers together in a platform to collaborate, to educate, to learn, to implement and make a bigger impact in achieving progressive social transformation in the Northeast India.

FISS pledges to work closely for the attainment of sustainable development goals and to address the region's most pressing issues. Assuch, the FISS can also be termed as one of the spokes of the SDG wheel.

Vision Creating Value Driven Social
Engineering For Progressive
Transformation

Mission To drive social transformation
by defining standards, setting
good practices, and honoring
the values of participation

FOUNDATION FOR INTEGRATED SUPPORT AND SOLUTION (FISS)

CIN- U74999AS2016NPL017565

Message from CMD

"RAISING THE BAR" continues to be the most appropriate tag line for Foundation for Integrated Support and solution (FISS). It represents our unwavering commitment to quality, innovation and best practices in everything we do within our organization, and on behalf of the thousands of beneficiary and clients who trust their care to us.

Foundation for Integrated Support and Solution (FISS), Guwahati, is a not-for-profit Section 8 Company, having expertise in the field of rural development with special focus in North East India, have been offering services in the areas of Consulting, Project Planning, Implementation, Management and Monitoring Services, Marketing and Marketing Linkage Services and Training & Research Services, towards a socially engineered Integrated Development for the achievement of the vision of Atmanirbhar Bharat. It will take more than a pandemic of global proportions to slow down or distract our incredible team at FISS. Our entire organization has been able to thrive during this ongoing crisis and not just survive. Professional, agile, dedicated, and impactful are only a few of the adjectives to describe our teams of employees.

Whether they were delivering services in rural areas, in Offices or from their homes, our entire workforce remained relentlessly committed to their clients and to each other as we strove to deliver more services to even more people. It takes an incredibly competent and skilled group of professionals to drive the types of results and innovative initiatives we delivered this past year. Records were broken, the expansion was extraordinary, and the impact has been of proportions few organizations ever experience. I wish Foundation for Integrated Support and solution (FISS) a great future ahead.

Dr. Kanak Haloi
Chairman & Managing Director
Foundation for Integrated Support and Solution (FISS)

AVIRAT

Continuous Infrastructure. Sustained Progress

Context and Strategic Imperative

While national development trajectories continue to advance, significant disparities in access to critical infrastructure and functional assets persist — particularly in rural, tribal, and peri-urban geographies. These systemic gaps across education, healthcare, sanitation, water access, youth engagement, and skills ecosystems constrain human development, reinforce cycles of poverty, and undermine inclusive economic growth. Conventional infrastructure-centric approaches, devoid of concurrent operational asset provisioning, have often resulted in underutilized facilities and un-sustained outcomes. Recognizing this structural limitation, AVIRAT, an initiative of the Foundation for Integrated Support and Solution (FISS), adopts a comprehensive, integrated strategy that simultaneously delivers: Transformative physical infrastructure; and Critical operational asset ecosystems.

By combining phased infrastructure development with strategic asset creation, AVIRAT ensures that community facilities are not merely constructed but are functionally enabled, immediately operational, and sustainability embedded from inception.

This dual architecture is designed to accelerate progress against India's national development missions and the United Nations Sustainable Development Goals (SDGs), catalyzing durable human capital formation, enhanced service delivery ecosystems, and resilient community advancement.

Vision

To catalyze resilient, inclusive, and sustainable community ecosystems through the integrated development of transformative infrastructure and strategic operational assets, advancing social equity, human development, and economic participation.

Mission

To operationalize a phased, scalable, and sustainability-anchored model that simultaneously drives infrastructure development and asset creation, empowering underserved communities to access quality education, healthcare, water security, sanitation, skills, and youth engagement opportunities, and thereby catalyzing systemic, durable impact.

Strategic Pillar

AVIRAT is architected across six interdependent strategic pillars, each delivering physical infrastructure and operational asset ecosystems to ensure functionality, sustainability, and transformative impact:

Pillar	Strategic Focus Area	Integrated Scope (Infrastructure + Assets)
Education Enablement	Development of inclusive educational infrastructure and resources.	Construction of Schools and Anganwadi Centres; provisioning of child-friendly furniture, digital learning tools, laboratory equipment, and Teaching-Learning Materials (TLMs).
Healthcare Access	Strengthening of primary healthcare delivery systems.	Upgradation of PHCs and Mother-Child Care Units; deployment of essential medical equipment, maternal child health kits, solar backup systems, and digital health support tools.
Water and Sanitation Resilience	Expansion of safe drinking	Installation of sustainable water systems, handwashing stations, sanitation blocks; deployment of water purification units, rainwater harvesting systems, and hygiene promotion assets.
Youth and Sports Empowerment	Development of inclusive community sports and youth engagement spaces.	Construction of sports fields, multipurpose playgrounds; provision of sports kits, fitness equipment, seating infrastructure, and recreational activity assets.
Skill and Knowledge Hubs (Skillora)	Establishment of multifunctional community hubs for learning and skilling.	Construction of libraries, digital learning centers, skill hubs; deployment of books, digital literacy devices, vocational training tools, and multimedia learning platforms.
Public Utility and Social Cohesion Infrastructure	Strengthening of community centric public spaces.	Development of community halls, cultural centers, multipurpose utility spaces; provisioning of community furniture, event management assets, and solar lighting systems.

Flagship Initiatives

AVIRAT advances five flagship initiatives, each strategically designed to integrate infrastructure development and asset creation, delivering holistic, sustainable, and transformative community ecosystem.

Initiative Name (with Tagline)	Strategic Focus Area	Objective
EduLink360 "Connecting Every Child to a Brighter Future"	Development of inclusive, resilient educational infrastructure and learning resources.	To enhance equitable access to foundational education by constructing Schools and AnganwadiCentres, supplemented with digital learning tools, child-centric furniture, and educational assets.
MediVive "Reviving Health. Restoring Lives."	Strengthening of primary healthcare infrastructure and deployment of essential health assets.	To improve maternal, newborn, and child health outcomes through revitalized PHCs, Mother-Child Care Units, and the provisioning of critical medical equipment and renewable energy solutions.
AquaNexis "Connecting Communities to Clean Water."	Expansion of sustainable drinking water access and integrated WASH infrastructure.	To ensure universal access to safe drinking water and sanitation by constructing water systems, WASH blocks, and deploying water purification and hygiene promotion assets.
PlaySphere "Empowering Youth Through Spaces of Play."	Development of inclusive community sports and youth engagement infrastructure.	To foster physical well-being, leadership, and social cohesion by creating sports fields, multipurpose playgrounds, and distributing sports kits and fitness resources.
Skillora "Igniting Skills, inspiring future "	Establishment of community knowledge hubs, digital learning canters, and vocational skilling spaces.	To catalyze digital literacy, vocational training, and economic empowerment through the creation of libraries, digital hubs, and deployment of skill enhancement tools.

NAVAARTHA

New Meaning / New Prosperity. Redefining Livelihoods for Inclusive Growth

Context and Strategic Imperative

Despite notable global economic growth, vast sections of marginalized and vulnerable populations continue to remain outside the mainstream development narrative. Structural inequalities, lack of access to quality education, limited financial inclusion, and inadequate market integration mechanisms have perpetuated cycles of poverty and exclusion, especially across rural, tribal, and underserved communities.

Navaartha emerges as a transformative response to this systemic gap — engineered to architect inclusive, sustainable, and future-resilient livelihood ecosystems. It seeks to redefine livelihoods not merely as economic transactions, but as catalysts for dignity, self-reliance, and equitable prosperity.

By enabling skill empowerment, enterprise development, financial inclusion, market integration, technological enablement, and climate-smart practices, Navaartha positions itself as a catalytic force towards achieving equitable economic participation and community resilience in alignment with global sustainable development mandates.

Vision

To architect inclusive, future-forward livelihood ecosystems that catalyze equitable economic participation, resilience, and sustained prosperity for marginalized and underserved communities.

Mission

Navaartha is committed to engineering systemic transformation in livelihood landscapes by empowering every individual—irrespective of socio-economic barriers—with the capabilities, opportunities, and ecosystem support necessary to build dignified, resilient, and sustainable means of living support necessary to build dignified, resilient, and sustainable means of living.

Strategic Pillar

Navaartha's operational model is anchored in six interdependent pillars to holistically transform livelihood

Strategic Pillar	Strategic Focus Area	Integrated Scope
Skill Empowerment Architecture	Design and deploy market-responsive, competency-based skilling pathways to enhance, employability, entrepreneurship and innovation capacities.	Integrated with education ecosystems (TVET, NSQF), industry skilling standards, rural development missions, and digital learning platforms.
Enterprise Enablement and Acceleration	Foster structured incubation, capacity building, financial facilitation, and scaling of micro and nano-enterprises.	Aligned with Start-up India, Stand-up India, cluster development initiatives, value chain development frameworks and CSR-based enterprise promotion programs.
Financial Inclusion Catalysis	Democratize access to affordable credit, micro-insurance, savings instruments, and digital financial services among vulnerable populations.	Convergent with financial literacy missions, Jan Dhan Yojana frameworks, fintech ecosystem integration, and livelihood finance programs.
Market Systems	Connect community enterprise to dynamic market system through aggregation, branding, certification and digital market access.	Linked with national and global value chains, e-commerce platforms, agricultural value chain strengthening, handicraft exports, and service sector integration.
Technological Advancement Enablement	Harness digital tools, ICT platforms, and emerging technologies to amplify training, enterprise management, market access, and Knowledge dissemination	Connected with Digital India, e-governance frameworks, blockchain traceability for products, digital marketing ecosystems, and Industry 4.0 opportunities.
Climate-Resilient Livelihood Promotion	Embed Sustainable practices into livelihood frameworks by promoting eco-friendly enterprises, regenerative agriculture, and resource-efficient production models.	Integrated with SDG 13 targets, NAPCC missions, circular economy principles, community based natural resource management, and climate adaptation funding mechanisms.

Flagship Initiatives

Curated portfolio of synergistic, high-impact interventions advancing inclusive, resilient, and sustainable livelihood ecosy

Initiative Name (with Tagline)	Strategic Focus Area	Integrated Scope within Navaartha
SAMARTHYA (Education- Skill-Enterprise Continuum)	Bridging educational exclusion, skill deficit, and enterprise enablement for marginalized youth	Anchored by SSPI, Samarthya delivers NEP-aligned learning, NSQF skilling and microenterprise activation- integrated with Skill Empowerment, Enterprise Enablement and Market Systems Integration pillars.
GramHari- Sustainable Community Enterprise Clusters	Aggregated, eco resilient production ecosystems for green rural enterprises	Empowers climate-smart village economies in agriculture, crafts and eco-tourism- aligned with Market Systems Integration and Climate-Resilient Livelihood Promotion.
NavaSetu - Digital Inclusion for Livelihoods (Unique)	ICT-led skilling, digital finance and enterprise digitalization.	Catalyzes digital transformation across rural livelihoods-embedded within Technological Advancement Enablement.
Jeevika Suraksha - Livelihood Risk Mitigation (Use with caution - "Jeevika" is common but no direct duplication)	Finance literacy, micro insurance and inclusive credit pathways	Strengthens household economic resilience and risk preparedness--supporting Financial Inclusion Catalysis.
SE3 - SHG Enterprise Empowerment Engine (Unique within this context)	Upgrading Self Help Groups into scalable, formalized business entities.	Transforms informal collectives into registered, market-ready microenterprises-across Gender Empowerment, Enterprise Enablement and Market Systems Integration.
GBI - Grassroots Business Incubator (Renamed from ECP to avoid conflict)	Structured incubation and acceleration of rural entrepreneurs	Delivers mentorship, financial readiness, compliance support and scalability for micro/nano enterprises- aligned with Enterprise Enablement and acceleration.

NIRAMAYANET

Connecting for Care, Committing to Health

Context and Strategic Imperative

India's public health trajectory, while progressing, remains undermined by regional inequities, systemic vulnerabilities, and emerging challenges, particularly in Northeast India. Persistently high anemia prevalence, early neonatal mortality, inadequate maternal and child healthcare access, and rising adolescent substance abuse necessitate urgent systemic recalibration. NirmayaNet responds as a comprehensive, policy-aligned framework to fortify health infrastructure, embed digital ecosystems, enhance workforce capacities and integrate Preventive interventions. Positioned at the nexus of national mandates (NHM, AMB, Poshan Abhiyaan) and global imperatives (SDGs 3,9,10,17), NiramayaNet offers a strategic platform to catalyze resilient, inclusive and sustainable health system transformation across underserved geographies.

Vision

To catalyze the emergence of resilient, integrated, and inclusive public health systems that guarantee equitable, Accessible and high-caliber healthy services to every individual, irrespective of geographic, socio-economic or demographic barriers

Mission

To engineer systemic transformation within public health ecosystems through strategic investments in infrastructure modernization, digital health integration, workforce capacity fortification and community anchored interventions- fostering sustainable, resilient and inclusive health outcomes across underserved geographies.

Strategic Pillar

Strategic Pillar	Strategic Focus
Infrastructure Modernization	Augmenting The physical infrastructure of primary, secondary ND tertiary care institutions to optimize healthcare service delivery capacities and system resilience.
Digital Healthy Ecosystem	Deploying advanced digital technologies to catalyze telemedicine proliferation, health information system modernization, real-time epidemiological surveillance, p and data-driven governance mechanisms.
Human Resource Capacity Building	Empowering the healthcare workforce through structured skilling,competency enhancements, mentoring frameworks and optimized performance management systems.
Preventive and Promotive Health Interventions	Institutionalizing Preventive care,nutritional security, maternal and child health protocols and non-communicable disease (NCD) Mitigation Strategies,including substance use disorder de-addiction pathways,into public health paradigms.
Health System Resilience and Governance Reform	Embedding decentralized governance models, emergency preparedness architecture and participatory decision-making frameworks to elevate systemic health security and responsiveness.

Flagship Initiatives

The operationalization of NiramayaNet is anchored through two high-leverage, systems-level flagship initiatives, meticulously designed to address critical public health vulnerabilities, strengthen systemic resilience, and catalyze inclusive socio-economic development across Northeast India.

Initiative Name	Strategic Focus	Core Objectives	Aligned Pillars
A. Saubhagya Shishu-Matri Mission (সৌভাগ্য শিশু-মাতৃ মিছন)	Maternal and child health systems strengthening in rural and tea garden geographies	Anemia reduction Neonatal survival enhancement (HBNC, HBYC, KMC)-Establishment of CBNCs- Technology enabled risk tracking.	1.Infrastructure Modernization, 2.Digital Health Scosy, 3.HR Capacity Building, 4.Preventive & Promotive Health
B. Aarohan: Rising Beyond Addiction	Child centric dead dictionary and psychosocial rehabilitation	Trauma informed rehabilitation centers Psychosocial counselling reintegration, school based Preventive education, digital post rehabilitation follow up	3.HR Capacity Building, 4.Preventive & Promotive Health, 5. Governance Reform.
C.Swasthya Setu	Rejuvenation of primary and secondary health infrastructure	Modular health facility upgrades,Green complaint, disaster resilient design- diagnostics and maternal care service zones.	1.Infrastructure Modernization, 5.Health System Resilience & Governance Reform
D.Nirmaya Net Digital Bridge	Digital Health systems integrand data driven governance	Unified platform for e-HMIS telemedicine, mobile tracking- Health data fash boards- AI/ML-based surveillance and prediction systems.	2.Digital Health Ecosystem, 4.Preventive & Promotive Health
E. Sanjeevani Workforce Acceleration Program.	Capacity building for Frontline health workers	Digital certification of ASHAs / ANMs/ CHOs-bLended learning and mentoring performance linked career pathways.	2.Digital Health Ecosystem, 3. HR Capacity Building
F.Gram Arogya 360:Community-Led Health Governance Framework.	Strengthening participatory village level health planning and monitoring	Activation VHSNCs & PRIs-- Community owned health microplans. Localized governance for service accountability.	HR Capacity Building, 5.Health System Resilience & Governance Reform

SAKSHAMITRA

Empowerment Abilities, Enabling Futures.

Context and Strategic Imperative

The Persons with Disabilities (PwDs) despite it comprising 2.21% of India's population (Census 2011), remain disproportionately marginalized across healthcare, education, workforce participation and Social protection systems. The structural inequities are markedly acute across Northeast India, accentuated by:

- Absence of universal early detection and rehabilitation infrastructures.
- Severely limited, penetration of affordable assistive technologies.
- Fragmented vocational skilling ecosystem disconn from market realities.
- Absence of institutionalized residential care for abandoned and vulnerable differently abled children.

Without a structured, rights based commitment to building infrastructure and support systems, the developmental gap for Persons with Disabilities (PwDs) will continue to widen, making equitable integration increasingly difficult.

Programme Objectives

Sakshamitra advances a systems-level intervention model to achieve:

1. Establishment of integrated early detection, rehabilitation, and therapeutic support ecosystems across target geographies.
2. Expansion of access to customized, localized, and affordable assistive technology solutions.
3. Enablement of market-aligned vocational skilling and inclusive livelihood pathways.
4. Institutionalization of specialized residential care solutions for differently-abled children, compliant with global child protection norms.
5. Mobilization of mass rights-based access to social protection mechanisms through disability certification, UDID enrolment, and scheme facilitation.
6. Creation of a decentralized, volunteer-driven facilitation force under the Debanjan Bandhu initiative to enable systemic last-mile inclusion

Strategic Architecture

Sakshamitra is architected as a modular, scalable, and technology-integrated model comprising six interdependent pillars:

Pillar	Core Deliverables
Early Detection and Rehabilitation Centres(EDRCs)	District anchored developmental screening,physiotherapy speech and occupational therapy services with real-time digital tracking.
Assistive Technology Access and Localization	Identification , deployment and life cycle management of affordable assistive devices,stimulation of local innovation ecosystems.
Comprehensive Rehabilitation Ecosystem	Integrated educational, therapeutic, psychological and skill development frameworks.
Vocational Skilling and Livelihood Integration	Design and execution of market aligned skilling, entrepreneurship development and inclusive workforce linkages.
Specialized Residential Child Care Institutions	Full spectrum residential rehabilitation, education and life skills infrastructure for differently-abled children.
Volunteer Mobilization Debanjan Bandhu	Structured volunteer force delivering disability certification, UDID facilitation, scheme linkage and grievance redressal.

Flagship Initiatives

Initiative	Strategic Description
Early Detection and Rehabilitation Centres (EDRC's)	Decentralized technology anchored hubs delivering developmental screening and early stage therapeutic intervto enable timely support and enhanced outcomes.
Centre of Excellence for Disability Inclusion	Regional multi service aggregation Centres delivering comprehensive rehabilitation, specialized skilling, assistive technology access and livelihood integration services.
Specialized Residential Child Care Institutions (CCIs)	Full spectrum residential rehabilitation, education and life skills infrastructure for differently-abled children.
Assistive Technology Access Program	Deployment lifecycle maintenance and stimulation of localized Production for affordable mobility, communication and cognitive support assistive devices.
Skill Development and Livelihood Enablement	Industry aligned vocational skilling architectures entrepreneurship promotion frameworks and inclusive employer engagement protocols targeting sustainable economic empowerment.
Debanjan Bandhu-Volunteer Mobilization for Disability Empowerment	Structured recruitment, training and deployment of volunteers to facilitate disability certification, UDID enrollment, government scheme registration, grievance redress and systemic post access support at scale.

Project Title

Supply and Installation of Inverter tube lights & cooling fans for schools in Udalguri District, Assam

About Lighting up Govt. School in Udalguri, Assam

The project stands to be a CSR initiative by Signify Ltd.. implemented by FISS to equip 100 schools in Udalguri District with inverter-powered lights and fans. Designed to counteract power instability, this initiative will provide continuous lighting and cooling solutions, fostering an optimized educational environment for over 10,000 students and educators. Through its sustainable, scalable approach, this project aligns with Signify's commitment to qualify education, clean energy and community empowerment.

Objectives

- To empower the next generation with the tools they need to learn, grow, and thrive.
- To encourage sustainable development & ensure to bridge the gap between rural and urban school structures.

Funding

Section 135 of Schedule VII of the Companies Act 2013

Funding Agency

Outcome

Installing inverter bulbs and cooling fans in a village improved comfort, supported education and work during power cuts, enhances health and safety, and boosted overall community well-being.

Photographs

Project Title

Provision of 9W Emergency Bulb in the flood affected area of West Tripura, Tripura.

About Providing Emergency Lightings in Tripura

Tripura in the month of August 2024 faced relentless amount of rainfall resulting in severe flooding with West Tripura being one of the worst-hit areas. The floods have caused extensive damage to infrastructure, resulting in power outages that have left many households without electricity. Given the situation, the provision of emergency lighting solutions is critical to ensure safety, improve living conditions in relief camps, and support ongoing rescue operations.

Emergency bulbs, particularly 9W rechargeable LED bulbs, can offer a sustainable solution by providing backup lighting during power cuts. These bulbs are easy to distribute, energy-efficient, and rechargeable, making them ideal for flood-affected areas.

Objectives

- To empower the next generation with the tools they need to learn, grow, and thrive.
- To encourage sustainable development & ensure to bridge the gap between rural and urban school structures.

Funding

Section 135 of Schedule VII of the Companies Act 2013

Funding Agency

Outcome

With power outages leaving many families in darkness, the distribution of LED bulbs restored a sense of normalcy, safety, and comfort. These energy-efficient lights helped in illuminating homes, shelters, and community spaces, enabling safer living conditions and smoother relief operations during these challenging times. The initiative benefited families, providing them with reliable lighting solutions that are both sustainable and long-lasting. By using low-energy, durable LED technology, the program supported immediate relief efforts while also contributing to longer-term resilience against future emergencies.

Project Title

Nutritional support to 204 TB patients under Phan Mantri TB MukT Bharat Abhiyaan in Goalpara District Of Assam.

About The Project

The CSR was executed by Eveready Industries India Ltd for FISS acting as an implementation partner has submitted a project **proposal titled “Nutritional Support to TB Patients under PRADHAN MANTRI TB MUKT BHARAT ABHIYAAN in Goalpara District of Assam”** which was subsequently accepted for implementation of the said project for nine (9) months w.e.f from the month of July 2024 till March 2025.

Objective

By ensuring that TB patients in Goalpara have access to adequate nutrition, this initiative not only supports individual health but also strengthens community-level disease control efforts, contributing to the overall public health goals of Assam and India.

Funding

Section 135 of Schedule VII of the Companies Act 2013

Funding Agency

Outcome

THE PRADHAN MANTRI TB MUKT BHARAT ABHIYAAN Provided nutritional support to 204 TB patients helped speed up recovery, ensured better treatment adherence, reduced the risk of relapse, supported daily functioning, and eased the financial burden on low-income families ultimately improving both individual health and public safety.

Project Title

One Day State Level Consultation Workshop on Available schemes for Malnourished & Stunted Children In North-Eastern States of Assam, Meghalaya & Arunachal Pradesh.

About The Project

To ensure inclusive growth for all and raise the living standards of its citizens, the Government of India has launched a 'Transformation of Aspirational Districts' programme to ensure an inclusive and all-round development across 112 districts. For this, National Institution for Transforming India (NITI Aayog) has identified Aspirational Districts: Health is an important indicator for Aspirational Districts. Many Districts in NER have been declared as Aspirational districts. Following this a one day State level consultation Workshop on available schemes for malnourished and stunted children in North-Eastern States of Assam, Meghalaya & Arunachal Pradesh have been organised by FISS.

Objective

The main objective of the Program was reaching the last mile through Convergence, Collaboration and Competition.

Funding Agency

Collaborated By

Outcome

The workshops on Available Schemes for Malnourished & Stunted Children in the North-Eastern States significantly enhanced awareness and understanding of key government initiatives among frontline workers, community leaders, and local stakeholders. It focused on improving the implementation of schemes such as **POSHAN Abhiyaan, ICDS, and Mid-Day Meal Programme**, ensuring that vital nutrition services reach the most vulnerable children.

Through capacity building and knowledge sharing, the workshop empowered health workers to identify and manage cases of malnutrition effectively. It also promoted community participation, encouraged the use of local food resources, and fostered convergence among various government departments. Importantly, the platform highlighted regional challenges, provided valuable policy feedback, and initiated behavioural change around child feeding and maternal care.

Overall, the workshop served as a catalyst for coordinated action, aiming to reduce malnutrition and stunting rates across the North-Eastern states and contribute meaningfully to India's broader nutrition goals.

Project Title

One Day State Level Sensitization Workshop Provision of Child Labour (Prohibition and Regulation) Act, 1986 with its Amended Act, 2016 and amended Rules, 2017 in Sikkim.

About The Project

Child labour practice is a hindrance to the mental as well as physical development of children as it deprives them of the most important phase of their life—their childhood. Children of or below the age of 14 years are strictly prohibited from being employed in hazardous occupations, as per Child Labour (Prohibition and Regulation) Act of 1986.

Lack of awareness and knowledge among communities, authorities, and stakeholders regarding the legal framework, rights of children and available support services. Addressing these challenges requires concerted efforts from government agencies, civil society organizations, communities and other stakeholders to improve coordination, allocate sufficient resources, raise awareness and enhance the effectiveness of interventions aimed at eliminating child labor and ensuring the protection and welfare of child.

The “One Day State Level sensitization workshop on provision of Child Labour (Prohibition and Regulation) Act 1986 with its amended act 2016 and amended rules 2017 Sikkim” was organized by National Commission for Protection of Child Rights (NCPCR) in collaboration with Sikkim State Commission for Protection of Child Rights (SSCPCR) facilitated by Foundation for Integrated Support and Solution (FISS) in the Mini hall auditorium, Mannan Kendra, Gangtok, Sikkim.

Objective

- Increase awareness of child labour laws and recent amendments.
- Strengthen enforcement and inter-agency coordination.
- Empower communities and employers to prevent child labour.
- Promote rehabilitation and education for rescued children.
- Encourage behavioural change and policy feedback for better implementation.

Funding Agency

Collaborated By

Outcome

The workshop on the Provision of Child Labour (Prohibition and Regulation) Act, 1986, along with its Amendments of 2016 and Rules of 2017, effectively enhanced the understanding of the legal framework among key stakeholders, including government officials, enforcement agencies, educators, employers, and community leaders. It clarified critical updates such as the complete prohibition of child labour under 14 years and the regulation of adolescent labour in hazardous occupations.

The workshop strengthened enforcement mechanisms by building the capacity of field officers and improving inter-departmental coordination. It also empowered communities to identify and report violations, while emphasizing the importance of rehabilitation and education for rescued children through proper utilization of welfare schemes and funds. Furthermore, the workshop fostered behavioural change by addressing socio-cultural justifications for child labour and encouraging a child rights-focused approach. Valuable policy feedback and actionable recommendations emerged, paving the way for more robust implementation and sustained efforts towards the elimination of child labour.

Project Title

One Day State Level Workshop on Counselling Essentials and Mental Health Needs of Children in Child Care Institutions (CCIs) of NER-Tripura

About The Project

To ensure & spreading awareness about the same, a “One day State level consultation on counselling essentials and mental health needs of children in Child Care Institutes (CCIs) of NER- Tripura” was organized by National Commission for Protection of Child Rights (NCPCR) in collaboration with Tripura State Commission for Protection of Child Rights (TSCPCR) facilitated by Foundation for Integrated Support and Solution (FISS) in the Hall no. 1, Pragya Bhawan, Agartala, Tripura.

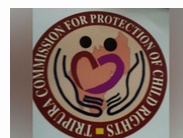

Objective

- Enhance awareness of children’s mental health needs in CCIs.
- Equip caregivers with basic counselling and trauma-informed skills.
- Promote early detection and referral of mental health issues.
- Strengthen coordination among stakeholders for holistic care.
- Foster child-friendly environments that support emotional well-being.
- Encourage knowledge sharing and adoption of best practices.

Funding Agency

Collaborated By

Outcome

The One Day State Level Workshop on Counselling Essentials and Mental Health Needs of Children in Child Care Institutions (CCIs) of NER – Tripura successfully strengthened the capacity of childcare providers, counsellors, and administrators to address the emotional and psychological well-being of children in institutional care. The workshop focused on trauma-informed counselling approaches, early identification of mental health concerns, and creating child-friendly environments within CCIs. It promoted inter-agency collaboration and equipped participants with practical tools to support children’s resilience and recovery. Overall, the workshop paved the way for more sensitive, responsive, and holistic care practices in Tripura’s child care institutions.

Project Title

One Day State level Consultation cum Awareness Workshop on Prevalence of HIV/AIDS amongst Children and Preventive Strategies in Tripura

About The Project

To ensure proper awareness and initiative of a "One Day State level Consultation cum Awareness Workshop on Prevalence of HIV/AIDS amongst Children and Preventive Strategies in Tripura" was organized by National Commission for Protection of Child Rights (NCPCR) in collaboration with Tripura State Commission for Protection of Child Rights (TSCPCR) facilitated by Foundation for Integrated Support and Solution (FISS) in the Hall no. 1, Pragya Bhawan, Agartala, Tripura.

Objective

- Raise awareness about the prevalence of HIV/AIDS among children in Tripura.
- Promote understanding of modes of transmission and prevention strategies.
- Equip stakeholders with knowledge for early detection and intervention.
- Strengthen coordination among health, child welfare, and community organisations.
- Encourage stigma reduction and promote inclusive support for affected children.
- Share best practices and develop actionable strategies for prevention and care.

Funding Agency

Collaborated By

Outcome

The One Day State Level Consultation cum Awareness Workshop on the Prevalence of HIV/AIDS amongst Children and Preventive Strategies in Tripura had a meaningful impact in enhancing awareness and understanding among key stakeholders, including healthcare providers, child welfare officials, educators, and community leaders. The workshop highlighted the current scenario of HIV/AIDS among children in Tripura, emphasising the importance of early detection, prevention strategies, and destigmatisation.

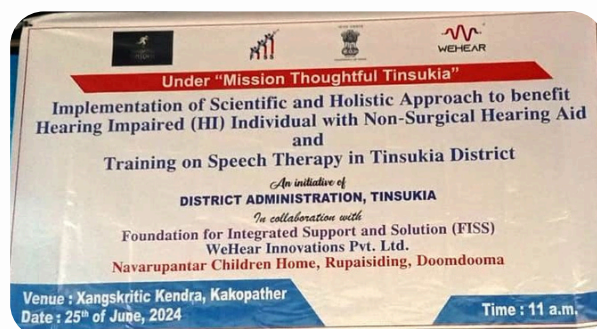

Participants gained practical insights into effective prevention methods, the role of education and counselling, and the importance of integrated care and support services for affected children. The workshop also strengthened inter-sectoral collaboration, encouraging joint efforts between health services, child protection systems, and community organisations to create a safer and more inclusive environment for vulnerable children. Overall, it paved the way for improved policy focus and grassroots action towards reducing HIV/AIDS prevalence among children in the state.

Project Title

Distribution of Non Surgical Hearing aid devices to 50 Hearing Impaired(HI) individuals in Kakopathar Block,Tinsukia,District, Assam.

About The Project

The Mizsion Thoughtful Initiative by District Commissioner of Tinsukia, alongwith the implementation made by FISS and supported by WeHear Innovation Private Limited distribute Non Surgical Hearing aid devices to 50 Hearing Impaired(HI) individuals in Kakopathar Block, Tinsukia, providing support andresources to marginaliz communities

Objective

- 1.dentification of all Divangjans
- 2.Saturation of Disability Certificate and UDID Card.
- 3.Coverage of all Divyangjans under Welfare Schemes (Ration card, PMAY, Orunodoi, etc.
- 4.Provision of Aids, Appliances and Prosthetics
- 5.Economic empowerment through Skill & Financial Inclusion
- 6.Political empowerment through addition in Electoral Roll & PWD marking in E-Roll.
- 7.Creation of an institutional mechanism for end to end services.

Funding Agency

In collaboration with

Technical Partner

Outcome

The event witnessed a strong community turnout, underscoring the importance of such initiatives in Tinsukia. The distribution of hearing aids to 50 individuals has empowered them to hear and interact more fully, without the need for surgery. The training sessions have also equipped them with the skills o use their new devices effectively, ensuring they can integrate these tools into their daily lives. With the implementation by Foundation for Integrated Support and Solution (FISS) and the technology provided by WeHear Innovation Private Limited, the program successfully combined social commitment with technological innovation to deliver meaningful results. This collaboration has served the way for further initiatives that can similarly impact the community positively.

Project Title

Born Healthy: Strategies for Reducing Low Birth Weight in Udalguri District

Activity Component

To reduce the Low Birth Weight and improve the overall health of the well-being of the mother's and the newborns in the Udalguri District, the District Commissioner launched "Mission Healthy Baby" a Mission to reduce the incidence of Low Birth Weight Babies focusing on improving maternal and child health outcomes, particularly in rural & hard-to-reach areas.

Following which an app-based survey was led by FISS along with District Administration to find out the causes of the high increase in Low Birth Weight Babies in the District.

Objectives

1. Collect real-time data on birth trends and related health indicators.
2. Identify key factors contributing to low birth rates in the district.
3. Monitor reproductive health and family planning practices.
4. Enable evidence-based policy planning and interventions.
5. Map demographic patterns linked to low fertility rates.
6. Evaluate the effectiveness of current health and welfare programs.
7. Improve outreach to vulnerable populations through digital engagement.

Funding Agency

Outcome

The survey for the mother's of the Low Birth Weights in the first phase has been done and a schedule has been prepared.

Project Title

Mission Thoughtful Tinsukia: Project compilation report on Coverage of All Divyangjans in the Tinsukia District under Orunodoi 3.0 & Mission Vatsalya.

About The Project

"Thoughtful Tinsukia" is a mission dedicated to supporting the holistic development of Persons with Disabilities (Divyangjans) by fostering inclusivity across the Tinsukia district. By deploying block-level Project Implementation Units (PIUs), the initiative aims to enhance grassroots coordination and ensure efficient implementation of targeted programs. Ensure that all Divyangjans in Tinsukia district are identified and empowered, receiving their rightful entitlements and benefits, thereby securing their entitlements, rights, and dignity in society. The initiative was led by FISS.

Objectives

- To establish Project Implementation Units in all 8 ICDS blocks of Tinsukia district.
- Identification of all PwDs in Tinsukia district.
- Saturation of all PwDs with Disability Certificate & UDID card.
- Coverage of all PwDs under Welfare Schemes (Orunodoi and Mission Vatsalya etc.).

Funding Agency

Initiative By

Outcome

All 21 types of disability as defined by the Rights of Persons with Disabilities (RPwD) Act, 2016, ensuring inclusive support for all disability categories has been covered during this phase and 6740 number of PwDs/CwDs in the district were contacted as per data received through ICDS Blocks.

Project Title

Financial Assistance for Setting up of a Science Laboratory at Anand Academy-Port I. Dispur, Guwahati".

About The Project

Setting up a science laboratory in a school enhances hands-on learning, improves academic performance, and fosters curiosity and critical thinking. It helps bridge the educational gap between urban and rural areas, promotes STEM career interest, and equips students with valuable technical and problem-solving skills. Additionally, it boosts teacher retention, improves school infrastructure, and positively impacts the local community through increased scientific literacy and innovation.

Foundation for Integrated Support & Solution in a way receiving financial assistance from ONGC-Oil and Natural Gas Corporation Limited, set up a Science Laboratory in Anand Academy, Dispur, Guwahati in a way giving in better exposure and enhancing the developed facilities for the education of the children and thus supporting a social cause.

Objective

- To provide hands-on learning experiences.
- To promote critical thinking and scientific inquiry.
- To enhance understanding of scientific concepts.
- To support curriculum-based practical activities.
- To prepare students for higher education and careers.
- To boost student confidence through experimentation.
- To bridge the gap between theory and practice.

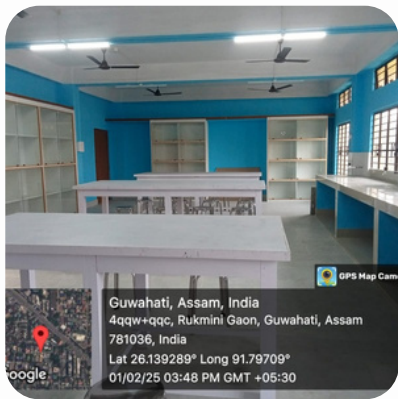

Funding Agency

Impact

Setting up a science lab in a school enhanced the practical learning, improved student performance, and sparked interest in science. It developed critical thinking and technical skills while preparing students for future STEM careers and contributing to overall school improvement.

Project Title

Financial Assistance for Construction of Women led lake side Cafeteria near the Library at Borboruah Pukhuri under Nazira Subdivision Sivasagar District of Assam.

About The Project

With Financial assistance provided by ONGC–Oil and Natural Gas Corporation Limited and utilization of Funds by Foundation for Integrated Support and Solution, a women led lake side Cafeteria was constructed near the Library of Borboruah Pukhuri under Nazira Subdivision of Sivasagar District, in Assam.

The construction of women-led cafeterias will empower women by providing opportunities for economic independence, leadership, and skill development. It will also promote gender equality, creates jobs, and positively impacts the community by offering healthier food options and serving as role models for future female entrepreneurs.

Objective

- To empower women through leadership and entrepreneurship in the food industry.
- To create job opportunities and promote economic independence for women.
- To challenge gender norms by fostering women-led businesses.

Funding Agency

Impact

The effect of construction of a women-led cafeteria were clearly visible as it provided a shelter and safe space for women through leadership and entrepreneurial opportunities, created jobs, and promoted gender equality. The women were also included in providing local economic growth, healthy food options, and were taken up as a role model by other women to pursue business ventures, fostering a positive social impact within the community. Construction of such infrastructures contributes towards enhancement of gender biases visibly present in the society.

Project Title

Financial Assistance for Renovation and Beautification of Children Park near Borboruah Pukhuri, Nazira.

About The Project

With Financial assistance provided by ONGC–Oil and Natural Gas Corporation Limited and utilization of Funds by Foundation for Integrated Support and Solution, the renovation and beautification of Children Park was done near the Borboruah Pukhuri in Nazira Subdivision of Sivasagar District, in Assam.

This renovation and beautification of a children's park aims to create a safe, inclusive, and visually appealing space that supports children's physical and mental development, encourages community interaction, and promotes healthier, more active lifestyles.

Objective

- To promote physical activity and healthy lifestyles among children.
- To provide inclusive play spaces for children of all abilities.
- To encourage family and community bonding in a vibrant outdoor space.
- To support children's social, emotional, and cognitive development through play.
- To foster environmental awareness through green and sustainable park features.

Funding Agency

Impact

The renovation & Beautification in a way enhanced the park area with more green & equipped facilities for children to enjoy their time. Such improvements lead to increased park usage, promote physical activity, and foster social interactions among families. Additionally the community pride & engagement along with the children and positive impact on local property values could be witnessed.

Project Title

Financial Assistance for Providing -139 Desk and Benches in Dholebagan Higher Secondary school, Choroideo District of Assam.

About the Project

With the financial assistance provided by ONGC, Foundation for Integrated Support and Solution provided 139 Desk & Benches in Dholebagan Higher Secondary school, Choroideo District of Assam.

Objective

- Comfort for Focus: Proper desks and benches enhance comfort, allowing students to focus on learning.
- Encouraging Organization: Desks provide students with a dedicated space to organize their learning materials.
- Supporting Equity: Well-equipped classrooms ensure equal learning opportunities for all students.
- Encouraging Inclusivity: Accessible desks and benches create an inclusive learning environment for all abilities.
- Long-Term Sustainability: Durable furniture reduces costs and supports long-term educational growth.
- Boosting Academic Performance: A well-equipped classroom contributes to better academic results and student focus.

Funding Agency

Impact

Providing desks and benches in the school created a more organized, comfortable, and inclusive learning environment. This enhanced student focus, participation, and academic performance while promoting health, discipline, and responsibility. Well-designed furniture ensured equal opportunities for all students, supports effective teaching, and contributed to long-term sustainability in education.

Project Title

Renovation of the old Pavilion of Peoli Phukan Stadium Sivasagar.

About the Project

A financial assistance was provided by ONGC to FISS for the renovation of the Old Pavilion of Peoli Phukan Stadium, Sivasagar.

Objective

- Transforming spaces to enhance functionality and aesthetic appeal.
- Reimagining spaces for enhanced comfort and value
- Creating beautiful, lasting renovations with precision and care.
- Turning outdated designs into contemporary, efficient solutions.

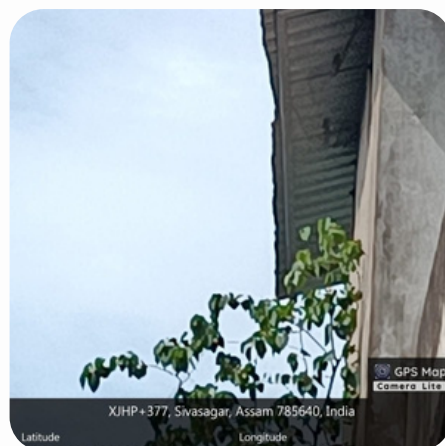

Funding Agency

Impact

Renovating the site had a transformative impact by increasing visitor numbers, enhancing accessibility, and preserving cultural or historical heritage. The improvements boost local economies, create safer and more enjoyable spaces, and promote sustainability. Renovations also provided opportunities for stronger community engagement, higher satisfaction, and new educational experiences. Overall, a well-executed renovation rejuvenated public spaces, making them more attractive, functional, and inclusive for all visitors.

Project Title

Mission life initiative in Tinsukia: A study compilation report of four different initiatives implemented by the District administration of Tinsukia, Assam.

About the Project

An Impact assessment study report was made by FISS for the four different projects initiated by the District Administration. These projects were :

- Water Hyacinth based livelihood project of Guijan Handicraft Society Limited, Tinsukia, Assam.
- Community-Based Hoolock Gibbon Conservation Project in Tinsukia District, Assam.
- Relocation & Rehabilitation of Laika Forest Villages of Dibru Saikhowa National Park & degraded areas of Nampai Reserved Forest of Tinsukia District.
- The bio-mining legacy waste management in Tinsukia District.

Objective

- To understand the Impact of the initiatives implemented in the long run.
- To have a track & knowledge of the ongoing scenarios in the different projects.
- To understand the requirements & suggestions for better implementation & functioning of the initiatives.
- To spread awareness among the community people about the projects.

Funding Agency

Impact

The "Mission Life" (Lifestyle for Environment) initiatives, focuses on promoting sustainable living to combat climate change. At the district level, administrations play a crucial role in implementing the initiative through various actions:

- Raising Awareness: Districts engaged communities through awareness programs, school initiatives, and eco-friendly campaigns to educate people on reducing their carbon footprints & make proper utilization of sustainable products.
- Sustainable Resource Management: Implementing waste management systems lead to cleaner, more sustainable communities.
- Policy Implementation: Local governments incentivized sustainable practices through rewards for using renewable energy or reducing waste, and integrate sustainability into development plans.
- Job Creation: Green jobs in areas like renewable energy and waste management help boost local economies while promoting sustainability.
- Biodiversity Conservation: District eestablished roTECTED areas and community forests to preserve local ecosystems and biodiversity.

Project Title

Placement linked skill development training (PLSDT) in Assistant Manual Metal Arc Welding

About the Project

A placement based Skill Development Training was provided by FISS initiated by the Government of Assam skill Development Mission.

Objective

- Encourage entrepreneurship in metal trades.
- Update workers with latest metalworking technologies.
- Promote sustainable metalworking practices.
- Provide certification for skill validation.
- Teach fundamental metalworking skills.
- Promote safe handling of tools and machinery.

Funding Agency

Impact

Metal-based skill development training lead to increased employment opportunities and higher productivity within the metal industry. It improved the quality, precision, and safety of metalwork while encouraging the adoption of modern technologies. Trainees gained the ability to start their own businesses, contributing to local economic growth. The training also boosted income levels, fostered innovation, promoted sustainable practices, and empowered youth and marginalized communities by enhancing their technical skills and confidence.

Photographs

Project Title

Upgradation of Kaji Nemu Cultivation and Harvesting skillscin Tinsukia District.

About the Project

For handling a trading business of Kaji Nemu in Tinsukia district, specific interventions have been designed in the form of project. The interventions are intended to make use of the potential of unlashng the benefit to the farmers through the entrepreneurial activities of agripreneurs, SHGs and local workers. To the realisation of such potentials in the context of weak marketing eco-system including trading logistics, the role of number of stakeholders have been envisaged in the form of knowledge partner, technology partner, marketing partner, funding partner and promoting partner so that planning, implementation and monitoring of the project become outcome oriented.

Objective

- Promote a marketing system in the district for handling Kaji Nemu as ODOP and. benefit farmers, agripreneurs and SHGs involved in the supply chain.
- Empower Kaji Nemu farmers, agripreneurs and SHGs with knowledge and skill.
- Support agripreneurs with means and materials involved in the primary processing activities of Kaji Nemu.
- Facilitate and hand-hold Kaji Nemu farmers, agripreneurs and SHGs in the formalization of their activities.

Funding Agency

ऑयल इंडिया लिमिटेड
Oil India Limited

Outcome

- Increased income for farmers through direct market access.
- Reduced dependency on middlemen in the agricultural supply chain.
- Enhanced market knowledge and negotiation skills among farmers.
- Improved value chain efficiency from farm to consumer.
- Stronger farmer cooperatives and producer groups.
- Adoption of modern marketing practices in rural areas.
- Better price realization for agricultural produce.
